

ZOHL Industries Sdn Bhd

company profile

Delighted to be with **YOU** on your journey to **SUCCESS**

ZOHL helps leading companies make the shift to digital and shorten the fuse to innovation. ZOHL combines the expertise and discipline of top-tier technology management talents with the agility you'd expect from a cutting-edge technology firm. This multidisciplinary blend of skills allows us to create unique digital advantages for our clients. ZOHL's digital solutions are agile, mobile, rooted in analytics, and built in the cloud. We provide our customers with a confident and reliable resource for industry experience, software engineering subject matter expertise, proven project management and implementation methodologies, and unrelenting problem solving. We communicate openly with our clients and respond promptly based on their needs. To win!

VISION

To provide unquestionably sustainable solutions
and services to our clients

MISSION

To create an efficient ecosystem of business partnership through our **R.A.I.N philosophy**, i.e., to engage our clients by being **R**ealistic about our approach, by being **A**ppreciative about the opportunity presented to us, maintaining high level of **I**nterest, and always being **N**ice to everyone involved in the ecosystem

CORE VALUES

Our business is to keep our clients happy with every project we deliver and we do it with a big

SMILE

- ☐ **S**ocially Active and Friendly
- ☐ Maintain High **M**oral Values
- ☐ Uphold **I**ntegrity
- ☐ Build a **L**asting Impression in everything we do
- ☐ Totally **E**ngaging every step of the way through effective delivery mechanism

APPLICATIONS

Applications Development

From Development to Production, your custom software development partner is here to help

The reasons businesses should develop applications are to make experiences and interactions simpler and more accessible to end users who need them.

Anything from changing user behavior to new internal requirements can be a reason to seek out an application development partner, and it's important to find one that makes it work for both your business and the end user. ZOHL is that type of partner.

- ✓ Customized Software Development
- ✓ Mobile & Web Applications Development
- ✓ Business Enterprise Applications

Digital Marketing

Leverage on technology to add value to the world

Our Digital Marketing Division compares your company's advertising techniques and offerings with those of competing businesses. We would help maintain a profitable message for your company and help with research to ensure your offerings come close to ideal price points to offer value to potential clients but still let you enjoy a thriving business. You should keep an eye on data that shows changing trends in advertising consumption and ensure that potential clients and consumers view your company's ad projects and buy your products.

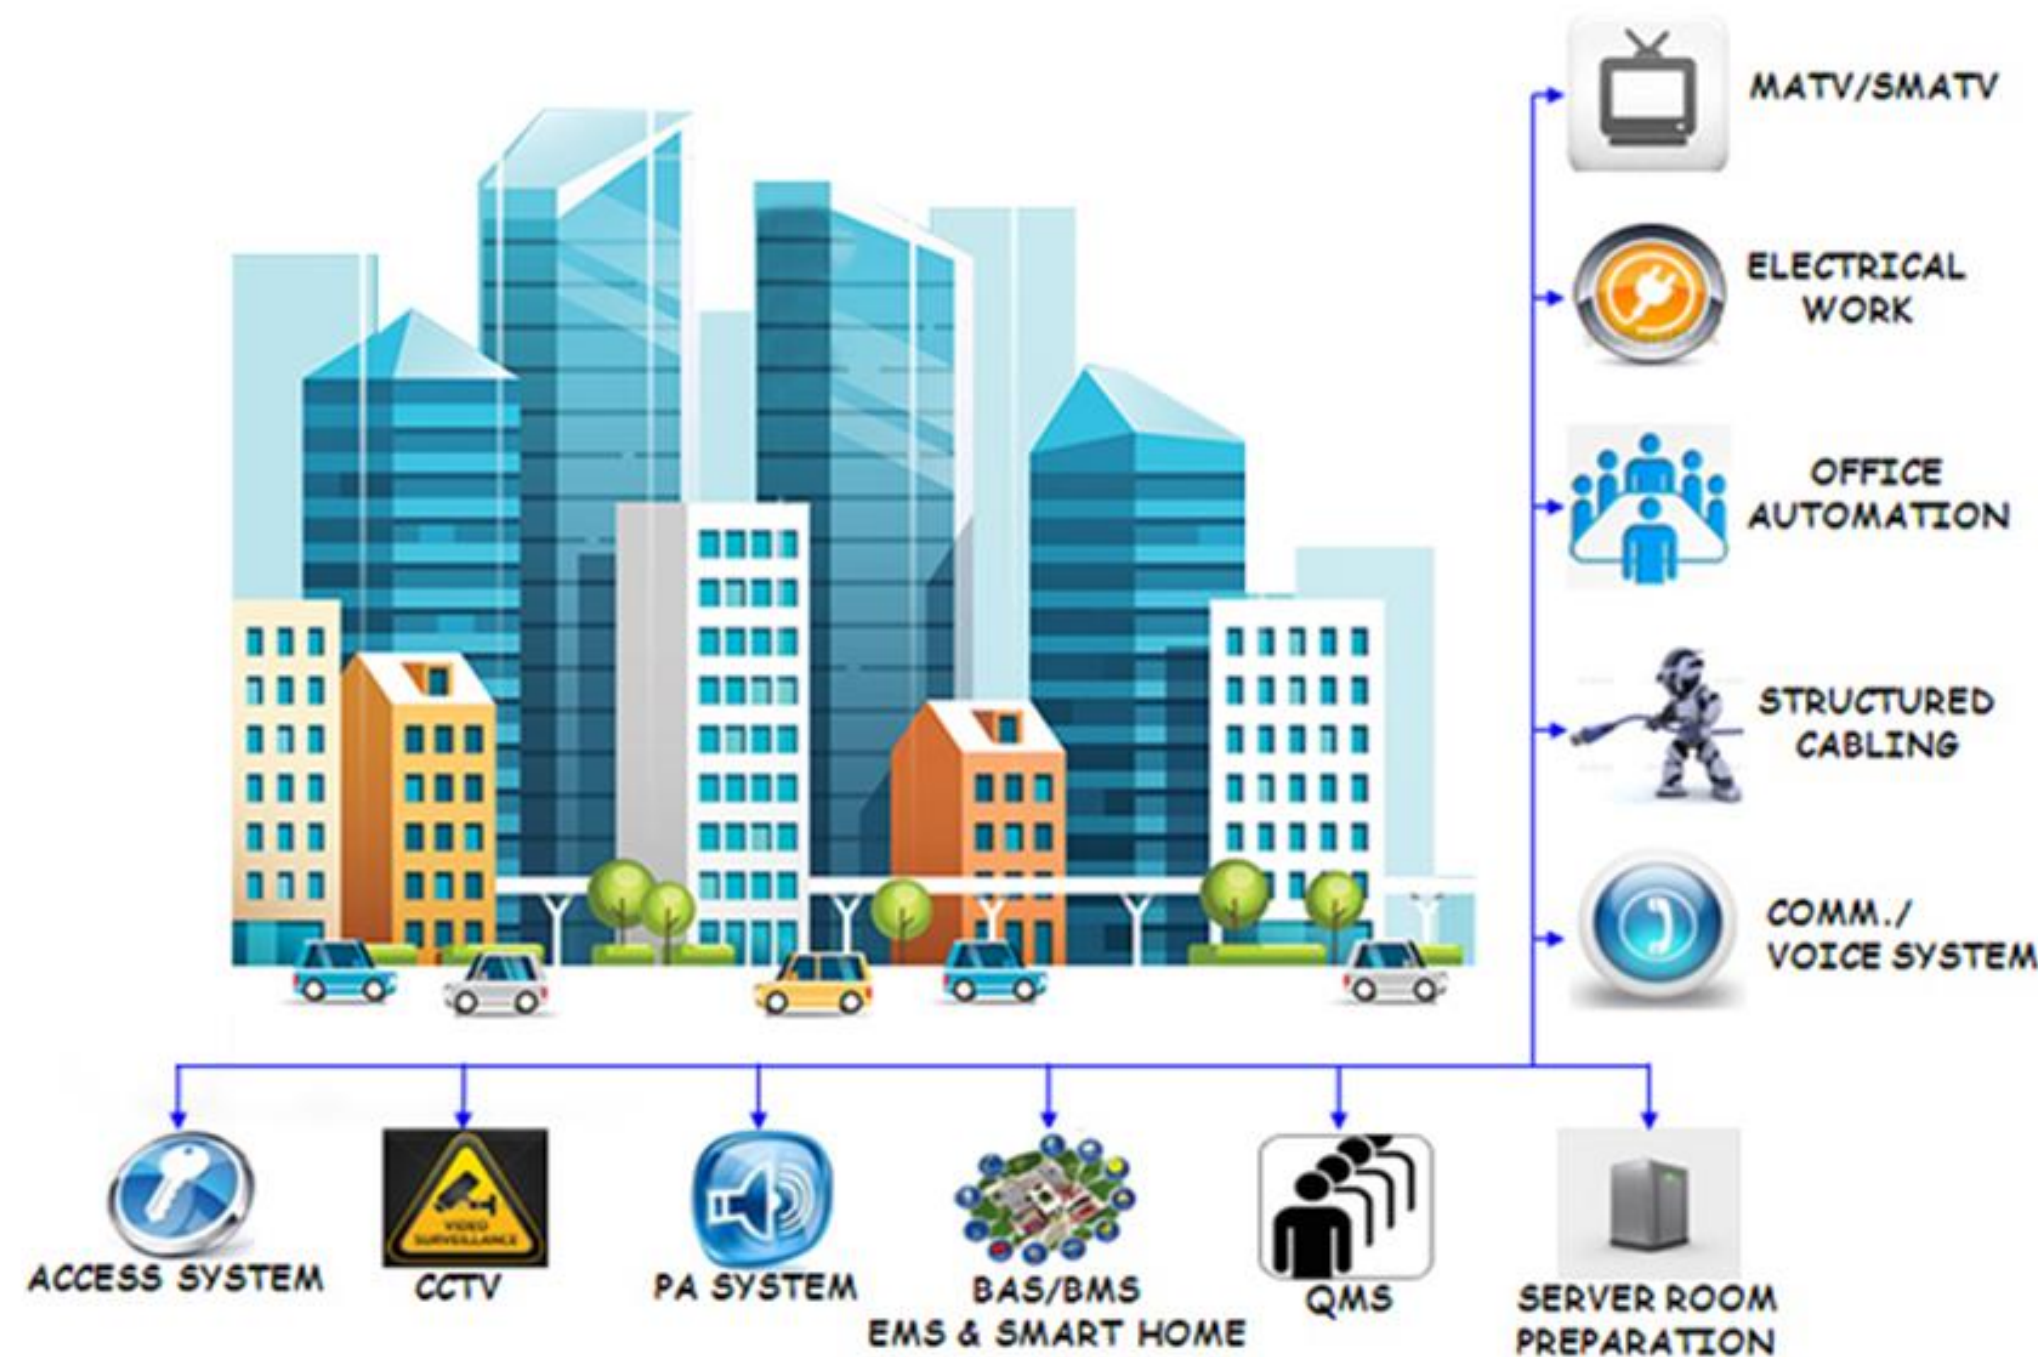

Our Services include the following:

- ☐ SEO & SEM
- ☐ Content Creation & Content Management Systems
- ☐ Logo & Sticker Design
- ☐ Video Production: Scripting | Conceptualization & Storyboarding | Voice-Over | Video Animation | Publishing
- ☐ Research advertising trends
- ☐ Research competitors' pricing and products
- ☐ Decide on appropriate placement of ads
- ☐ Determine what content will reach customers
- ☐ Develop projects to create content
- ☐ Publish digital marketing content online
- ☐ Implement email marketing campaigns
- ☐ Implement social media marketing campaigns

Engineering Services (CME-ELV-TELCOS)

Scope of Work

○ Concept ○ Planning ○ Site Survey ○ Engineering ○ Design ○ Implementation ○ Testing & Commissioning ○ Optimization

Area of Expertise

- ✓ IT & Telecommunications Network Infrastructure – Structured Cabling (UTP Cat5e, Cat6, Cat7+); Fiber Optics, IBC
- ✓ ELV – telephone, data communications, LAN, CCTV, fire alarm, public address, queue system, and master clock systems etc.
- ✓ Mechanical & Electrical Works
Electrical Works – eg. 1. Laying of TNB ABC cables in the site c/w concrete pole / underground cables, 2. Electrical wiring both for domestic and commercial building, 3. Building Management Systems etc, cctv, pabx systems from home to guard house/club house, automatic barriers at property entrances.
- ✓ Earthing & Lightning Protection
- ✓ Data Center
- ✓ Additional Services: Site Audit | Operation & Maintenance
Network Quality Check And Assessment

Systems & Network Integration

- ✓ **Partner with US**
In a climate of rapid change, it is often easy to lose sight of organizational goals and become entangled in the overwhelming issues involved with the implementation of new technologies. Integration of computer systems, database management tools, legacy systems, enterprise applications, and network configurations, along with a host of other issues, require significant investments of time and expertise, which are typically unavailable during an initial implementation.
- ✓ **Experience Matters**
With more than 20 years of experience, ZOHL brings knowledge and expertise required to solve the complex issues surrounding systems integration. With a solutions oriented approach, ZOHL works to provide clients with results, not simply technologies. From initial planning through implementation, ZOHL focuses on long term systems, applications, network and database requirements, identify solutions which provide scalability and work to implement technologies within the frame work of the existing environments.
- ✓ **Choice is YOURS**
Whether implementing a new technology such as Windows-based or Cloud-based solutions, developing Client Server applications on existing systems or expanding your current network to include remote locations, ZOHL can provide experienced personnel and the technical expertise required to develop practical solutions.

Lean Management Practice

Project Management Methodology & Quality Management Methodology

We have adopted industry best practices in **Quality Management Methodology (QMM)** and **Project Management Methodology (PMM)**. We will apply these methodologies in all of the projects undertaken.

PMM Key Benefits

- ☐ Defining standard processes and techniques;
- ☐ Following a consistent, structured approach;
- ☐ Facilitating continuous stakeholder involvement and reviews;
- ☐ Establishing effective management controls and procedures; and
- ☐ Increasing awareness of the mechanisms for capturing experience.

QMM Key Benefits

- ☐ Ensure the achievement of quality objectives is not left to chance.
- ☐ Ensure that appropriate methodologies, standards, procedures, and guidelines are implemented, with full management support,
- ☐ Ensure that quality is monitored and defects identified, along with appropriate corrective actions.
- ☐ Ensure that identified faults are rectified, and that the chance of recurrence is reduced.

Why ZOHL?

Competent

strong commercial, technical, and financial competencies

Experience

more than 24 years of experience in providing solutions & services across multiple sectors/industries since 1995
